

CSGT 2014

June 9.–13.2014, Teplice nad Bečvou Spa
JČMF and Department of Applied Mathematics VŠB – TU Ostrava
e-mail: csgt2014@vsb.cz web: <http://graphs.vsb.cz/csgt2014>

FIRST ANNOUNCEMENT

Dates

The 49th Czech-Slovak Graph Theory Conference 2014 will take place June 9–13, 2014 in Sanatorium Moravan in Teplice nad Bečvou, Czech Republic.

Program

There will be at least one invited lecture every day, contributed talks twenty minute each, a trip on Wednesday and a Problem Session.

Abstracts

The Abstract Proceedings will be available at the beginning of the conference. Therefore, we would like you to submit your abstracts in prescribed format (one \TeX or \LaTeX A5 page) by May 9.

Conference Site

Sanatorium Moravan will be the conference venue. The conference price for bead and breakfast is 500 CZK per night and person in a double room (550 CZK with single occupancy). There is a limited number of larger rooms for 700 CZK (750 CZK with single occupancy).

Registration and Conference Fee

You can register through the conference web page. The deadline for submitting abstract, reduced conference fee, and reduced price for accommodation is May 9. An early registration will help us a lot! The conference fee is 4000 CZK, students have a 500 CZK discount. Also members of JČMF and JSMF have a (perhaps additional) 500 CZK discount. After May 9 the regular conference fee is 4500 CZK. The fee includes scientific program, boarding in the hotel restaurant, proceedings and other materials, trip, and conference dinner. Every participant shall pay for his accommodation at the reception desk, participants can claim the discount price given above.

Social Events

There will be a Welcome Party on Monday evening, a Conference Dinner on Thursday, and a traditional trip on Wednesday. There are two options: a short trip – guided tour to the Zbrašov Aragonite Caves along with a walk to the Hranice Abyss (the deepest abyss in the Czech Republic); a long trip to the ruins of Helfštýn Castle. We recommend good hiking shoes for both the trips, in the caves it can be slippery. In sanatorium Moravan the participants can use the swimming pool as well as the spa and wellness facilities.

Organizers

Department of Applied Mathematics VŠB-TU Ostrava and JČMF.
